Using compound exercises—moves that hit more than one area of the body at a time—readers will build more fat-burning muscle in less time, raise metabolism, and keep their bodies stoked all day. This book concentrates much of the work in the core and lower body, engaging and building the largest muscles we have (glutes, quads, etc.) to achieve the best results in the most efficient way possible. No wasted moves. No wasted moments. As Cruise likes to say, "Five minutes and you're done!" Couple that with the most cutting-edge eating science and dedicated readers will see visible results in 6 days. It's the ultimate fitness and fat-loss program for busy people everywhere.
