This realistic, relevant and accessible book explores the teacher's role and what makes for effective learning and teaching in the further education sector through means of a fictional approach. It provides a series of linked case study chapters, each set in the same fictional institution and each involving characters, with a range of pertinent roles, who appear and re-appear as their overall story arcs develop. Chapter aims are clearly stated and each narrative is followed by an analysis of key points through challenging critical thinking activities. The clear contextualisation of the required Standards and skills is of particular value to pre-service student teachers and those beginning their careers. The fictional approach provides a picture of working life and professional practice inside a further education institution with the flexibility to explore every topic essential to the student teacher, from professionalism, differentiation and inclusion to behaviour management and student-teacher relationships.

Designed from the ground up with a constructivist framework, **BUILDING TEACHERS: A CONSTRUCTIVIST APPROACH TO INTRODUCING EDUCATION**, 2nd Edition helps future teachers create their own understanding of education. As the authors address the key topics generally covered in an introductory book, they encourage readers to develop their own understandings by connecting their prior knowledge, experiences, and biases with new experiences to which they will be exposed during the course. Highlights of the new edition include stronger standards integration and expanded material on diversity and technology. By interacting with the materials presented, rather than merely memorizing the book's content, readers learn what teaching is all about in an exploratory, inquiring, constructivist-based manner. In turn, they can help the children in their classrooms learn meaningfully. Available with InfoTrac Student Collections <http://goconengage.com/infotrac>.
